This chapter provides an introduction to understanding the political economy of the modern global trading system. One striking feature of the contemporary international trading system arises from the conflict between the continuing political importance of the national border and its declining economic relevance.

Global Political Economy | Macmillan Higher Education

This volume provides an introduction to the field of Global Political Economy (GPE). It explores some of the approaches that have addressed the key concerns of theorists of GPE; for example, what conditions are most conducive to the emergence of collaborative behaviour among states on economic issues, or what are the determinants of the foreign economic policies of states.
