dispelling addition to the growing canon covering the history of the bicycle. It is a short but authoritative supplement with diagrams and photographs smartly selected and well positioned to support the text.

Book Review - Bicycling Science | CyclingShorts.cc

The best (or at least most popular) books featuring cycling or cyclists - biographies, histories, photo collections, travel guides or memoirs, novels, training manuals, etc. So long as cycling is a significant feature of the book (not just some character in chapter three once rode a bike), then it should be okay.
