In short, positive psychology is the scientific study of the strengths and virtues that enable individuals and communities to thrive. It is a rich and growing field, and aligns perfectly with coaching: both assume people are basically healthy, resourceful, and motivated to grow.

Positive Psychology and Coaching - Mentor Coach

I actually in 2018, uh, excuse me, 2019, my gosh, uh, into this year, um, published my first singly authored academic journal article on rethinking leadership competencies. Given what we know about motivation science. Uh, we published a paper on motivation and power and what leadership power does to people's motivation.
